EU FUNDING: 25%
ERDF – SWEDEN
REGIONAL COMPETITIVENESS AND EMPLOYMENT OBJECTIVE**

00:00:17:00

Robotdalen is a Swedish initiative which aims to help create growth in the Mälardalen region. It builds on our long tradition, and expertise in robotics.

GENERAL MANAGER
ROBOTDALEN**

00:00:32:21

We help those who have good ideas within the robotics sector, and who want to take them to the market. We help them with financing, either from our own sources or if more money is needed, then we help them find more investors. We also help by offering our know-how and experience and by giving them access to our network of researchers, technicians and other good firms.

00:00:54:20

We work with many different types of robotics. From industry robotics which aims to make industry become more efficient, to field robotics, for example surveillance robots, to robotics for the health sector, such as for example a robot that helps people to eat by themselves.

00:01:14:00

To date, our investment in these projects has resulted in 15 new products and 15 new firms – our goal however is to reach to 30 new products and 30 new firms by the year 2013.
